FIFTEENTH YEAR OF PUBLICATION—1934 ISSUE

FOREWORD

The Institute presents herewith the Fifteenth issue of Financial Statistics—Canadian Governments. The figures given herein are comparable with those given in previous issues of the "Red Book." We believe this to be a very important feature, inasmuch as it is possible, with such figures taken over a term of years, to get a good idea of the trend financial affairs are taking in any given municipality.

The publication is issued in loose leaf form, usually in two sections, each section being published as soon as the information is as complete as it is deemed possible to make it. The first section covers all the urban municipalities with a population of 10,000 or over and those with a population 2,000 to 10,000, with the exception of those in the Province of Quebec. The second section covers the remaining urban municipalities with a population of 400 or more, as well as larger rural municipalities with substantial bond issues outstanding. It also includes a page devoted to the Dominion and the Provinces.

In recent years much of the information in the latter section is at a date a year later than that which the Edition is expected to cover. For instance, while the 1933 Edition is presumed in general to give information as at Dec. 31st, 1932, it will be seen by turning to pages 24 to 28, pages 32 to 42 and page 49 of that edition that much of it is at Dec. 31st, 1933.

Most Canadian municipalities now issue their financial reports with commendable promptness, but it is regrettable that some municipalities have not yet come to realize fully the benefits which accrue from such prompt publication. Statements giving the more important features of the year's operations should be available within three months, at the latest, after the end of the fiscal year. When information is unduly delayed, not only does it have an adverse effect upon the investor, but it also means, in most cases, that the business of the municipality has been conducted for a considerable period without that valuable guide which the experience of the previous year offers.

The Institute wishes to point out again that the "standards" used herein are not infallible guides in determining the financial strength or weakness of a municipality. They should be used merely as "indications" of the desirability of more detailed enquiry before arriving at final conclusions. The manner in which taxes are being paid is an important factor in sizing up the situation. That this is true has been illustrated by the fact that the majority of Canadian municipalities which have been and are in financial difficulties have given warning of conditions through their heavy tax arrears. It is advisable, however, when examining tax arrears to consider also bank loans outstanding for current purposes, as sometimes sufficient allowance is made when striking the tax rate to offset taxes uncollected. Such a condition is usually indicated when tax arrears figures are comparatively high, but current borrowings only nominal. Some municipalities may exceed the "standards" considerably and still be perfectly sound, and all the elements affecting the financial capacity of the municipality under examination must be kept in mind.

The Institute wishes to express its appreciation of the excellent co-operation received from Municipal and School Treasurers and other officials in the supplying of these data. It also wishes to thank its subscribers for their continued support.

(x) These amounts in some instances are only approximate. They include loans on account of Hydro, Housing, Railways, Storage Dams, Rural Credits, Telephones, etc.

[1] These are the 1933 figures, per capitas of which are listed in Tax Conference Reports No. 125,126. They are placed as nearly as possible on a comparative basis, and do not coincide exactly with totals in the public accounts. They do not include capital or extraordinary revenues or expenditures, nor those of self-supporting public utilities.

[2] Not borne directly by the people of the Province. To arrive at the per capita expenditure from local sources, this must be deducted from total per capitas.

[3] Includes $808,000 housing debt.

[4] There are, in addition, $9,230,873 Savings Certificates outstanding. Special investment fund was $2,963,795.

[5] After deducting $1,318,644, being sinking funds against guarantees. Does not include $32,233,658 for railways either controlled by the Dominion Government or assumed jointly by C.N.R. and C.P.R.

[6] Not including $27,392,911 guarantee for railways controlled by Dominion Government.

[7] Not including $3,000,000 Canadian Northern Rly. securities. In addition, Province has outstanding treasury bills, $10,826,999, with the chartered banks in connection with the closing of the Provincial Savings Office, against which there are pledged securities, $10,747,991, the proceeds of which, upon realization, are to apply to reduction of said bills.

[8] Includes $5,384,688 to Dominion re workmen's dwellings.

[9] Not including promises to pay various institutions annual amounts over definite terms to be applied in payment of bonds and interest thereon aggregating $16,732,898.

[10] Includes P.G.E. Rly. debt of $20,160,000, interest on which is borne by the Province.

[11] Includes $40,157,524 for railways controlled by Dominion Government; also $6,733,333 for Vancouver and District Joint Sewage and Drainage Board, against which there is a sinking fund of $704,489.

[12] Not including railway and steamship deficits, $62,114,764 net, or $5.85 per capita.

[13] Includes $792,000 housing debt.

[14] Includes issue sold Jan., 1934.

[2] Exclusive of school tax arrears, the amount of which was $27,532 at June 30th, 1933.
[3] Exclusive of school tax arrears, the amount of which was $13,152 at June 30th, 1933.
[4] End of fiscal year changed to April 30th, so that tax collections cover a sixteen-month period. Figures are approximately correct. Total arrears at Dec. 31, 1933, amounted to $22,174,804.
[5] Not inclusive of water taxes uncollected, amounting to $45,891. Figures for 1932 published in the "Red Book" should read $48,280, instead of $95,267 to be comparable. Neither year includes school tax arrears.
[6] In addition, $17,407,200 industrial property temporarily exempt.
[7] Figure not strictly comparable with that published in 1933 "Red Book," as it includes $102,236 school taxes uncollected not included in 1933 book. Comparable figure in previous year, $440,725.
[8] Figure not strictly comparable with that published in 1933 "Red Book," as it includes $241,217 school taxes uncollected not included in 1933 book. Comparable figure in previous year, $896,693.
[9] After deducting reserve of $81,147. In addition, City owns tax sale lands of $66,467.
[10] After deducting reserve of $87,650. In addition, City owns tax sale lands of $16,784.
[11] After deducting reserve of $441,269.
[12] Not inclusive of schools. For school tax arrears, see Page 10.
[13] Includes school arrears of $35,448, but not water tax arrears of $47,487, the total water levy being $106,802. It is not included in the figures of tax levy above. Of it, $23,141 was uncollected at Dec. 31/33.
[14] Amount of 1933 municipal levy, exclusive of schools and water taxes, uncollected at Dec. 31st, 1933, was $32,105.
[15] After deducting reserve of $450,796. Includes arrears of county levy.
[16] After deducting reserve of $31,899.

¶ As at June 30th, 1933. School taxes, debt and sinking funds are included with municipal figures only in order to make possible a general comparison with towns of other provinces. The fiscal year, and in some cases the boundaries of school and municipal districts, do not coincide. They are usually administered by separate boards. For school tax arrears see page 23.

h Housing.
[1] Under Montreal Metropolitan Commission.
[2] As at Sept. 30th, 1934.
[3] Includes combined Pointe Claire and Beaconsfield Protestant School District, for which: assessment, $4,771,684; tax levy, $47,145; debt, $153,400; sinking funds, $17,596; loans, $15,900; and taxes uncollected, $16,242.
v At value. Debt not reported.
x Approximate.
y Including sewers.
¶ As at June 30th, 1933. School taxes, debt and sinking funds are included with municipal figures only in order to make possible a general comparison with towns of other provinces. The fiscal year, and in some cases the boundaries of school and municipal districts, do not coincide. They are usually administered by separate boards. For tax arrears of schools, see page 26.
* As at Dec. 31st, 1934.

[1] These figures have not been put on a per capita basis, as present standards cannot be fairly applied to rural municipalities. They might apply more nearly to suburban municipalities.
[2] Improvements are not fully taxed as a rule in Western municipalities. This is amount taxed only.
[3] Assessments in British Columbia Districts are those for 1934.
[4] Includes housing debts.
[5] Debt consolidated.
[6] Estimate for District. 1931 census population 4,786.
[7] In addition, has guaranteed $407,500 Burrard Inlet Tunnel & Bridge Co. bonds.

* As at Dec. 31st, 1934.
(s) Indicates municipality suburban or partly suburban in character.

* Information as at Dec. 31st, 1934.

v As at Jan. 15th, 1935.

[1] As county rates need not be paid until Dec. 20th, after which date interest at the rate of 6% per annum is charged, it frequently happens that a considerable amount of taxes unpaid at Dec. 31st may be paid at a date early in the next year. Unless otherwise noted, taxes remaining uncollected are all current.

[2] Loan on highway account, which is more than covered by Provincial subsidy due.

[3] At assessor's value. This property is also liable for taxation by the township, village or town within whose limit it lies. Does not include income assessment.

[4] These taxes are levied on the various municipalities within the county, and not directly on individuals.

[5] As far as can be ascertained, none of these debts are for public utilities.

[6] Area, population and assessment do not include municipalities separate from the county.

[7] Standards used for urban municipalities do not apply, so figures have not been put on a per capita basis.

[8] County has guaranteed debt, $655,774.

[9] County has guaranteed debt, $93,663.

[10] Of this, $37,855 is 1933 levy.

[11] County has guaranteed debt, $4,712,270.

[12] County has guaranteed debt, $350,000.

[13] Of this, $352,023 for levies previous to 1934.

[14] Paid in Jan., 1935.

[15] In addition, bills payable, $182,500.

[16] Owe Province highway construction, $78,371.

[17] Of this, $16,574 is 1933 levy.

The importance of the tax collection index in judging the trend of financial affairs in a municipality has been stressed by the Institute for many years. Knowing that its "Red Book" subscribers would be particularly interested this year in the manner in which taxes were being paid, the Institute on Sept. 4th, sent out a questionnaire to the urban municipalities in Canada with a population of 10,000 or over and to a number of other municipalities. The promptness with which much of this information was supplied, the Institute feels, not only speaks well for the condition of the records in the municipalities concerned, but also evidences a spirit of co-operation and general willingness to make known the facts, which is an excellent basis for confidence.

In studying these figures the following facts must be kept in mind:

(a) Percentages between municipalities are not strictly comparable since dates of tax collection differ widely, and the dates at which the information is given also differ in some cases.

(b) Percentages of collections of the same municipality are not always comparable for the same reason.

(c) That gross tax levies have been used so far as possible, that is, before deduction of any allowance included for uncollectible taxes, etc.

Keeping these facts in mind, however, the figures in general show:

(1) That the tendency still is to reduce tax levies, although in some instances increases have taken place and in many the reduction is very small, and in some municipalities the reduction is due to non-levy for principal payments or to funding of direct relief costs.

(2) That the percentage of current levy collected in 1934 is higher in many instances than at the same date in 1933. This is a welcome sign inasmuch as this is a change in the trend of the last four years.

(3) That the percentage of arrears collected has also increased in many municipalities in 1934 compared with 1933, also a change in the trend of the last four years.

It would seem, therefore, that if the improved tax collection condition in many Municipalities indicated in this interim statement continues during the year,1934 may mark the cessation of the rapid growth of tax arrears which marked an increasingly dangerous situation in Canadian Municipalities. Great care and caution, however, will still have to be exercised by governing bodies before many municipalities again work into a real secure position.
